**2022 Proposal for the Aquatic Vegetation Treatment Program for Hidden Lake**

Please accept this as our 2022 proposal for the Aquatic Management Program of your pond. We are recommending treating the pond with a state registered algaecide and /or herbicide. An outline of these applications can be found below.

**Scope of Services**

The Pond and Lake Connection will file the required Connecticut Department of Environmental & Energy Protection (CT DEEP) Permit upon acceptance of this contract. Upon receipt of the approved permit and growth of the plants the initial algaecide and / or herbicide application will be made. Applications will be made based on label recommendations, standard aquatic weed management practices, and your approval. You will be notified of any water-use restrictions under Connecticut Law. These restrictions will be considered during treatments. Follow-up applications will be performed as necessary.

**Tentative Schedule of Performance**

- File CT DEEP Permit Application.....Upon Receipt of Signed Proposal and Permit Fee (Jan. 2022)
- Initial algaecide/herbicide application .....Upon Receipt of Permit / Spring 2022
- One Follow Up Inspections and Applications.....Early to Late Summer

Our ability to proceed with these treatments is dependent on the timely receipt of the required DEEP approved permits. **If you are in agreement with the terms as described above, please sign and return with payment for the permit by January 15, 2022 to ensure we receive the state permit in time for treatments. Permits can take up to 90 days to be approved and received.** If you have any questions, please feel free to call the office at any time. Product labels can be found on our website for additional information or furnish upon request.

We appreciate this opportunity and are looking forward to working with you in the year ahead. Thank you!

Sincerely,  
AQUATIC SPECIALIST  
The Pond and Lake Connection
